### **PART ONE: Principles of Waiting on God**

**Introduction: Why is God So Slow?** *When He Seems to Take Forever, Is He Working Out a Plan?*

1. Principle 1: *If you're going to follow God's plan, expect some frustrating "detours" that you can't explain at the time.*
2. Principle 2: *Just because we can't see or understand what God is doing doesn't mean He isn't doing anything.*
3. Principle 3: *We should not limit our Identities to who we are in the long days of waiting. God may have surprises in store for us.*
4. Principle 4: *Even if you figure out what God's plan is, you are likely to think it is not the best way to go about things.*
5. Principle 5: *Sometimes we wait on God and obey Him, and things get worse.*
6. Principle 6: *We may feel stuck in an "Almost, Not Yet" pattern, but God, in His good time, will sweep away the obstacles that stand in the way of our calling.*
7. Principle 7: *We should keep reminding ourselves what the Lord did for us in the past because we're going to need that reassurance as we step into the uncertainties of the future.*
8. Principle 8: *There is a time to Act, and there is a time to "take your station" and Wait on God to fight your battle.*
9. Principle 9: *During a long wait, three big enemies we have to fight are Restlessness, Complaining, and Disobedience.*
10. Principle 10: *God's slowness is no excuse for scrapping His plan in favor of a quicker one of your own devising.*
